Item # _____

Standard Features

- Our new "Next Generation" QV series Reach-in's are built to the highest standards and redesigned to ensure proper temperature even in **100 deg. environments**.

- Heavy duty stainless steel door with full length recessed door handles; interior step design for added insulation and protection of door gasket to protect your long term investment. Single door units are **field reversible** for your ever changing needs.

- Air distribution channel on both single and double door freezers for proper temperature thru out the cabinet.

- Refrigerators maintain product temperatures from 33° to 38°F / freezers: -8°F, includes automatic defrost for the best temperatures in food preparation.

- Both Refrigerators and Freezers **accepts 18" x 26" sheet pans.**

- Enhanced digital controller with Energy Savings feature refrigerators and freezers to keep food quality for longer period of time. **Door alarm** to prevent food from spoiling.

- **2-3/8" Ecomate** CFC-free polyurethane insulation foamed in place for extra strengh and energy efficiency. Environmentally friendly with zero ozone depletion (ODP) and zero global warming potential (GWP).

- Glass doors units are dual panel with aluminum frames and LED lighting for greater visibility of your products.

Reach-in Refrigerators & Freezers
QV Series

Specifications

Construction
Heavy duty stainless steel exterior front and sides. Aluminum top and galvanized back panel. Interior completely constructed of heavy duty stainless steel with coved cornered floor. Door is heavy duty stainless steel exterior and stainless steel interior, step design with stainless steel hinged solid doors and positive seal. Provided with locks per section, magnetic door gaskets, removable without tools, self-closing and with 90˚stay open feature. Recessed full length door handle. Door openings have a plastic breaker strips to retard condensate formation. Single door units are field reversible. Glass door units have a dual pane glass, thermal insulated with heavy duty aluminum frame and door handle. Unit comes complete with a 2-3/8" Ecomate CFC-Free polyurethane insulation, foamed in place. Air distribution channel on both single and double door freezers. Interior incandescent light with safety shield per section outside the food zone and activated by door rocker switch. Glass doors units have full height LED lighting along the side.

Refrigeration System
Self-contained capillary tube system using environmentally friendly (CFC Free) refrigerant. (R-134a refrigerator / R-404a 3 doors refrigerator & freezers) Bottom mount condensing unit on a rail system for easy access. Evaporator coil is mounted to interior top panel encased in stainless steel. Large fan motor and fan blades for better air flow.

Refrigerators are designed to maintain temperatures between 33˚ F to 38˚F and freezers -8˚F to 0˚F during normal operations.

Energy savings digital controllers and thermostats. Automatic defrost, time initiated.
Shelving
(3) Epoxy coated wire shelves with clips per door. Adjustable in 1/2" increments. Aluminum pilasters with stainless steel clips.

Others
Unit is supplied standard with a 8' cord and plug (Nema 5-15p). Standard 4" diameter casters, front 2 with brakes.

Warranty
3 year parts and labor warranty plus 2 additional year compressor warranty. (Continental U.S.A. & Canada only).

Salad / Sandwhich Tables
FST Series

FAGOR

Specifications

Construction
Heavy duty stainless steel exterior top, front and sides. Galvanized back panel. Interior completely constructed of heavy duty stainless steel with coved corner floor. Aluminum split wall between the food pans and the interior cavity. Door is heavy duty stainless steel exterior and interior, step design with stainless steel hinged solid doors and positive seal. Provided with magnetic door gaskets, removable without tools, self-closing and with 120°stay open feature. Recessed full length door handle. Door openings have a plastic breaker strips to retard condensate formation. Unit comes complete with a 2" Ecomate CFC-Free polyurethane insulation, foamed in place.

Refrigeration system
Self-contained capillary tube system using environmentally friendly (CFC Free) R-134a refrigerant. Front breathing for built-in applications. Evaporator coil is mounted to interior top panel encased in stainless steel. Large fan motor and fan blades for better air flow.

Tables are designed to maintain temperatures between 33° F to 38° F in the interior cabinet and 41° F in the top rail.

Features
10" wide removable and reversible cutting board, NSF approved white polyethylene, ½ deep.

Stainless steel insulated hood and top lid keeps pan contents colder. Durable, long lasting and removable for easy cleaning.

Comes standard with standard 1/6 size, clear polycarbonate, NSF approved 4" deep food pans and adaptor bars.
Shelving
(1) Epoxy coated shelving per door with clips. Adjustable in 1/2" increments per shelf.

Others
Unit is supplied standard with an 8' cord and plug (Nema 5-15p). Standard 5" diameter casters, front 2 with brakes.

Warranty
3 year parts and labor warranty plus 2 additional year compressor warranty. (Continental U.S.A. & Canada only).

Item #

Standard Features

- Our new "Next Generation" prep table have been completely re-designed to ensure proper temperature even in **100 deg. environments.**

- Exclusive base design for over **30% greater interior capacity** than most in it's class.

- All stainless steel interior and exterior construction for a clean & safe food environment. Coved corner floor to meet NSF requirements.

- Heavy duty stainless steel door with full length recessed door handles; interior step design for added insulation and protection of door gasket.

- Forced air design **underneath the pans** to keep products fresh and maintain temperature at 33° - 41°F in food pans and cabinet interior. Split design with an aluminum divider wall between the food pans and the interior cabinet. Complies with NSF7 standards for food product safety.

- Insulated hood and lid skeeps pan temperature cold and minimizes condensation. 10" full length removable and reversible cutting board.

- Standard with full sets of 1/6 size pans, clear polycarbonate, 4" deep / will accommodate 6" deep pans.

Refrigerated Chef Base
FCBR Series

FCBR-52   FCBR-52-60   FCBR-72

FCBR-84   FCBR-96

Item # _____

Standard Features

- Our chef bases are designed with durability and strength that you will not find in any other products in its class.

- All stainless steel interior and exterior construction for a clean & safe food environment. Coved corner floor to meet NSF requirements. Drip resistant "V" marine edge protects against spills.

- Drawers: Heavy duty drawer slides, full length recessed drawer handles; accommodate: FCBR-52 (2) 12" x 20" x 4" / (3) 1/6 th x 4" deep pans per drawer. FCBR-60/96 (3) 12" x 20" x 4" deep pans per drawer. FCBR-72 (2) 12" x 20" x 4" deep pans per drawer. FCBR-84 (3) 12" x 20" on right drawer / (2) 12" x 20" x 4" deep pans on the left drawer. (pans sold separately).

- **Forced air inside** to keep products fresher and maintain a constant temperature between **32°F to 41°F** in refrigeration equipment.

- Enhanced digital controller to keep food quality for longer period of time.

- Side breathing refrigeration system for built-in applications.

- **2" Ecomate** CFC-free polyurethane insulation foamed in place for extra strengh and energy efficiency. Environmentally friendly with zero ozone depletion (ODP) and zero global warming potential (GWP).

- Equipment mounted on heavy duty **4" casters**.
